BREATH TEST OPERATOR RENEWAL COURSE (FDLE-951)

FPSI

Course Information

To attend this training the participant must be a Florida law enforcement officer, assistant state attorney, or Non-Sworn member employed by a law enforcement agency. Their duties must include the administration of the Breath Test Operator.

Non-Sworn Agency Members, Florida Sworn Correctional, and Military (Federal) Law Enforcement will require prior FDOT Approval before registration is complete.

This class is 4 hours and is NOT a salary incentive course. Training Authorization forms must be signed by agency representative authorizing the training.

WHAT SHOULD I BRING?

All classroom materials will be provided by FPSI.

WHAT ARE THE EXPENSES TO ATTEND?

Tuition for FDOT grant funded classes is covered fully by the grant. Housing and meals are covered ONLY for classes held at the Florida Public Safety Institute where the student is traveling over 50 miles to attend.

ENROLLMENT INFORMATION:

To view classes available, go to the Tallahassee State College website. To enroll for this course, click the link below:

Course Registration

For questions about registration or services we offer, contact the current program coordinator at:

Florida Public Safety Institute
Coordinator: Gerry Barrett
Email: traffsafe@tsc.fl.edu
Phone: (850)-201-7739

Class Dates and Location:

Course Dates: May 5, 2026

Course Time: 8:00 AM to 12:00 PM (Tues)

Location: Treasure Coast Public Safety Training Complex
Vernon Smith Building (PS1), Classroom #212
4600 Kirby Loop Road,
Fort Pierce, Florida 34981

Instructor: William Hitchcock

COURSE DESCRIPTION:

This 4-hour course meets the requirements for periodic retraining of those holding a permit to conduct chemical tests using the **Intoxilyzer 8000**. This course meets all FDLE requirements.

Training will include the role of the breath test operator, the instrumentation used to analyze breath test samples, how to properly obtain reliable breath samples, and the proper way to administer a breath test using the **Intoxilyzer 8000**.

The student must possess a valid Breath Test Operator Certificate issued by the FDLE Alcohol Testing Program (ATP.)

COURSE TOPICS INCLUDE:

- Demonstrate how to check the subject for foreign objects in the mouth
- Explain why the subject must be observed for 20 minutes until the breath test is completed
- Describe the implied consent law
- List the elements of a valid breath test
- Demonstrate proficiency in administering a breath test

Location: Treasure Coast Public Safety Training Complex
Vernon Smith Building (PS1), Classroom #212
4600 Kirby Loop Road,
Fort Pierce, Florida 34981

Instructor: William Hitchcock

COURSE DESCRIPTION:

This 16-hour course reviews the rules for obtaining and analyzing breath samples during breath testing and meets the requirements to certify the breath test operator's permit using the Intoxilyzer 8000 series instrument.

Training will include the role of the breath test operator, the instrumentation used to analyze breath test samples, how to properly obtain reliable breath samples, and the proper way to administer a breath test using the Intoxilyzer 8000 .

COURSE TOPICS INCLUDE:

- Define breath test operator
- State the role of a breath test operator
- Understand the requirements outlining qualifications to apply and maintain a BTO permit

BEHAVIORAL ANALYSIS TRAINING GROUP

10,000
TRAINED
SINCE 2009

PERSONALITY PROFILING AND ADVANCED QUESTIONING TECHNIQUES

This advanced program explores the science and psychology of information extraction through refined elicitation and behavioral profiling strategies. Designed for law enforcement professionals, this course teaches how to use subtle questioning methods to reveal concealed information, assess credibility, and identify behavioral patterns. Participants will learn to interpret both verbal and nonverbal responses, detect deception, and adapt their approach based on personality and motivation profiles. By integrating psychological insight with practical application, officers will enhance their effectiveness in interviews, interrogations, intelligence gathering, and informant management—developing a professional edge in every conversation that matters.

JUNE 1-5, 2026
5 DAYS/40 HOURS

Criminal Justice Institute at Indian River State College:

ADVANCED TRAFFIC HOMICIDE INVESTIGATION COURSE (FDLE-087)

FPSI

Course Information

To attend this training the participant must be a Florida law enforcement officer or assistant state attorney. Their duties must include the investigation of traffic crashes or the support of crash investigators.

The student must have taken and passed Basic Traffic Homicide, or its equivalent. Participants should have an aptitude towards mathematics.

This class is 80 hours and is a salary incentive course. Training Authorization forms must be signed by agency representative authorizing incentive pay.

WHAT SHOULD I BRING?

Students should bring calculator, equation handbook, crash template, and manuals provided at BASIC THI class.

WHAT ARE THE EXPENSES TO ATTEND?

Tuition for FDOT grant funded classes is covered fully by the grant. Housing and meals are covered ONLY for classes held at the Florida Public Safety Institute where the student is traveling over 50 miles to attend.

ENROLLMENT INFORMATION:

To view classes available, go to the Tallahassee State College website. To enroll for this course, click the link below:

Course Registration

For questions about registration or services we offer, contact the current program coordinator at:

Coordinator: Gerry Barrett
Email: traffsafe@tsc.fl.edu
Phone: (850)-201-7739
Florida Public Safety Institute

Class Dates and Location:

Course Dates: June 8-19, 2026

Course Time: 8:00 AM to 5:00 PM (Mon-Fri)

Location: Treasure Coast Public Safety Training Complex, Vernon Smith Building (PS1), Classroom #212
4600 Kirby Loop Road,
Fort Pierce, Florida 34981

Instructor: Bobby Mullinax

COURSE DESCRIPTION:

In this course the student will learn additional laws of physics that apply to speed, acceleration, and frictional forces. The dynamics of a vehicle in motion with respect to airborne situations such as falls vaults, and flips will be covered.

An introduction to linear momentum will complete this vehicle dynamics section. The student will also learn to analyze impact damage as it relates to vehicle and occupant movement. This course is ideal for the officer on a career track to become a traffic crash Reconstructionist.

An exercise in the measurement of vehicle crush deformation will be conducted.

COURSE TOPICS INCLUDE:

- Vehicle lamp examination
- Vehicle tire evaluation
- Vehicle dynamics; motion, distance, and time
- Vehicle airborne dynamics
- Vehicle damage evaluation
- Conservation of momentum

ADVANCED ERO WATER SURVIVAL

COURSE OVERVIEW

The ERO Water Survival Course is designed specifically for emergency responders to build calm, control, and mission-readiness in high-stress water operations. Participants learn to manage physiological stress, improve decision-making under pressure, and strengthen in-water efficiency when conditions become challenging.

Course Highlights:

- Control Under Pressure – Proven techniques to manage stress and keep composure when seconds matter.
- Physiology & Performance – Understand how your body reacts under extreme demands and how to take control.
- Operational Relevance – Controlled breath-hold ascents, recognition and treatment of hypoxia, and tactics to improve efficiency on scuba.

SUPERVISOR LEADERSHIP INSTITUTE

FORT PIERCE, FL

The Supervisor Leadership Institute (SLI) targets first-line supervisors, however the SLI course is suitable for all police leaders – sworn and civilian. They will complete a DISC leadership assessment to understand and grow their own leadership practices. The following topics are covered in the SLI:

- Defining leadership, generational effects of leadership, leadership as a lifestyle, leadership traits
- Building credibility, organizational credibility
- Four pillars of discipline, immunity, supervisor liability
- Participants will complete a DISC assessment of their personal leadership style

TRAFFIC CRASH RECONSTRUCTION (FDLE-088)

FPSI

Course Information

To attend this training the participant must be a Florida law enforcement officer or assistant state attorney. Their duties must include the investigation of traffic crashes or the support of crash investigators.

The student must have taken and passed Basic Traffic Homicide and Advanced Traffic Homicide, or its equivalent. Certificates of completion may be required.

This class is 80 hours and is a salary incentive course. Training Authorization forms must be signed by agency representative authorizing incentive pay.

WHAT SHOULD I BRING?

You will need a scientific calculator, your equation guide and a traffic template issued at the pre-requisite classes. All other materials will be provided by FPSI.

WHAT ARE THE EXPENSES TO ATTEND?

Tuition for FDOT grant funded classes is covered fully by the grant. Housing and meals are covered ONLY for classes held at the Florida Public Safety Institute where the student is traveling over 50 miles to attend.

Phone: (850)-201-7739
Florida Public Safety Institute

Class Dates and Location:

Course Dates: August 3-17, 2026

Course Time: 8:00 AM to 5:00 PM (Mon-Fri)

Location: Treasure Coast Public Safety Training Complex, Vernon Smith Building (PS1), Classroom #212
4600 Kirby Loop Road,
Fort Pierce, Florida 34981

Instructor: Bobby Mullinax

COURSE DESCRIPTION:

Combined with the supportive training of Basic Traffic Homicide Investigation, and Advanced Traffic Crash Investigation, the student completing this training is prepared to become an expert in court concerning traffic crashes, allowing for the admission of expert opinions in how a traffic crash occurred.

In this course the student will receive training in formula derivations; the determination of the root scientific principle from which the traffic crash formula is derived.

The student will learn Newton's laws of motion in the explanation of vehicle movement. Also the student will be taught angular applications to conservation of momentum and vector sum analysis.

COURSE TOPICS INCLUDE:

- Formula derivation
- Vehicle speed analysis
- Newton's laws of motion
- Conservation of momentum using angular collisions
- Extensive practical exercises and project work

BASIC TRAFFIC HOMICIDE INVESTIGATION COURSE (FDLE-098)

FPSI

Course Information

To attend this training the participant must be a Florida law enforcement officer or assistant state attorney. Their duties must include the investigation of traffic crashes or the support of crash investigators.

The student should have an aptitude towards mathematics.

This class is 80 hours and is a salary incentive course. Training Authorization forms must be signed by agency representative authorizing incentive pay.

WHAT SHOULD I BRING?

All materials will be provided by FPSI.

Florida Public Safety Institute

Class Dates and Location:

Course Dates: October 19-30, 2026

Course Time: 8:00 AM to 5:00 PM (Mon-Fri)

Location: Treasure Coast Public Safety Training Complex, Vernon Smith Building (PS1), Classroom #218
4600 Kirby Loop Road
Fort Pierce, Florida 34981

Instructor: Bobby Mullinax

COURSE DESCRIPTION:

The student will be refreshed on their duties and responsibilities at the scene of a crash. The student will learn how to identify evidence found on the roadway and from the vehicle.

An introduction to some of the important mathematical calculations and physical laws will be given. Also, the student will learn how to measure and diagram, and how to use photography and video to document the scene.

The student will also participate in practical exercises involving measuring and diagramming.

COURSE TOPICS INCLUDE:

- Physical evidence from the roadway
- Physical evidence from the vehicle
- Frictional forces and acceleration
- Determining speeds from skid mark evidence
- Crash scene photography
- Methods of measuring crash scenes
- Diagramming scenes and use of traffic templates
- Case preparation

IRSC CRIMINAL JUSTICE INSTITUTE presents:

CANINE TEAM TRAINING COURSE

(CJSTC 1199)

This 80 hour course is to prepare an instructor student to obtain Commission certification as a canine Team Training Instructor and instruct the Canine Team Training Course, (CJSTC 1198).

COURSE DATES: October 20th - 29th, 2026 8am - 6pm
Tuesday - Friday the first week
Monday - Thursday the second week

COURSE COST: \$1500

COURSE LOCATION: Treasure Coast Public Safety Training
Building PS1, Room 220
4600 Kirby Loop Rd., Fort Pierce, FL 34981

COMMAND LEADERSHIP INSTITUTE

FORT PIERCE, FL

The Command Leadership Institute (CLI) is a dynamic and challenging program uniquely designed to prepare law enforcement leaders for command level positions. The CLI provides real-life, contemporary, best-practice strategies and techniques for those who are already commanders or are aspiring to a command level assignment. CLI faculty members are passionate instructors who have executive level law enforcement and leadership experience.

CLI students will be engaged in such topics as: credibility, command discipline, liability, problem employees, and leading change within an organization. The Command Leadership Institute is student-centered with a high degree of student involvement.

GLOCK PROFESSIONAL TRAINING

Combined Armorer and MOS-I OC Operator Course

November 3-5, 2026 | 8:00 a.m. - 5:00 p.m. | Treasure Coast Public Safety Training Complex, PS7 Range Building

3-Day Combined Course | \$700 Per Student | Certificate Issued Upon Successful Completion

This combined offering brings together the **Gen 5 Plus AC Armorer Course** and the **GLOCK (MOS-I OC) Operator Course** into a single 3-day training event. Designed for eligible public safety and qualified participants seeking both armorer-level maintenance knowledge and operator-level pistol proficiency.

DAY 1 - GEN 5 PLUS AC ARMORER COURSE

- Introduction
- Safety check, field stripping, and disassembly/reassembly
- Slide and frame options
- Authorized customizations for Gen 5, V, and Gen 6 platforms

Student brings: Safety glasses and small flashlight.

Armorer eligibility: Active or retired law enforcement, military, private security, GLOCK Stocking Dealer/Range Program employees, or current GSSF members.

DAYS 2-3 - GLOCK (MOS-I OC) OPERATOR COURSE

- Range procedures and commands
- Nomenclature, ballistics, dry practice, and pistol presentation
- Fundamentals of marksmanship and red dot considerations
- Manipulation, ready positions, malfunctions, target engagements, and shooting on the move

This dynamic operator course is intended for public safety professionals who have successfully completed a basic pistol course and want to strengthen practical pistol skills with either iron sights or MOS configurations.

EQUIPMENT / REQUIREMENTS

- GLOCK pistol with optic mounted or iron sights; no modification other than sights or external cosmetics
- Belt capable of supporting holster, pistol, and magazines
- Magazine carrier capable of carrying two magazines
- Minimum of 3 magazines
- 1000 rounds of factory ammunition
- Strong-side holster with trigger guard
- Appropriate range attire
- Eye and hearing protection, plus hat or ball cap with brim or bill
- Current Concealed Carry Permit or Statement of No Criminal History from a law enforcement agency

Note: GLOCK will provide lunch for the Armorer Course day as applicable. Review official GLOCK course forms for complete equipment and eligibility requirements.

REGISTRATION

Register through the **GLOCK Professional Training website**. For local hosting information, contact the Indian River State College Criminal Justice Institute.

Hosted by: Indian River State College Criminal Justice Institute

Location: Treasure Coast Public Safety Training Complex - PS7 Range Building

COURSE DESCRIPTION:

Combined with the supportive training of Basic Traffic Homicide Investigation, and Advanced Traffic Crash Investigation, the student completing this training is prepared to become an expert in court concerning traffic crashes, allowing for the admission of expert opinions in how a traffic crash occurred.

In this course the student will receive training in formula derivations; the determination of the root scientific principle from which the traffic crash formula is derived.

The student will learn Newton's laws of motion in the explanation of vehicle movement. Also the student will be taught angular applications to conservation of momentum and vector sum analysis.

COURSE TOPICS INCLUDE:

- Formula derivation
- Vehicle speed analysis
- Newton's laws of motion
- Conservation of momentum using angular collisions
- Extensive practical exercises and project work
